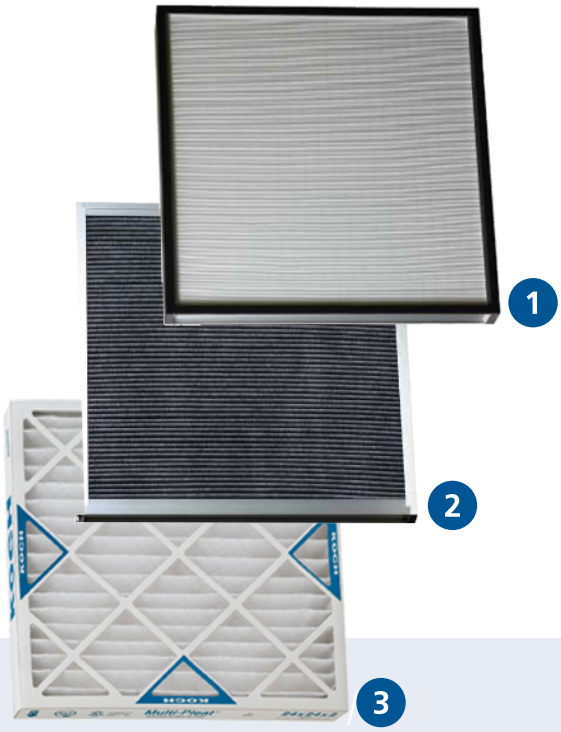
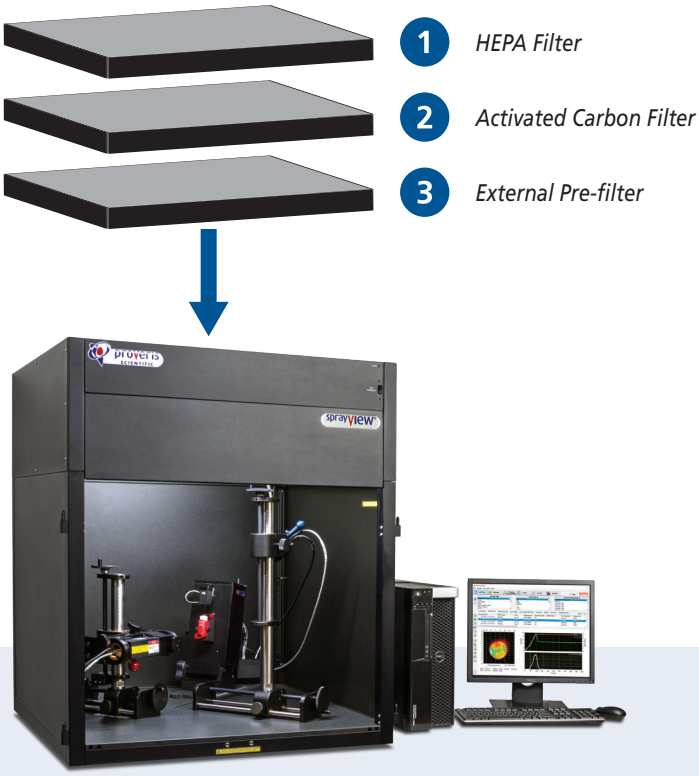
SprayVIEW® Measurement System Environmental Enclosure (SEE)

ACCESSORY

The enclosed chamber with effective and software-controlled evacuation and filtering system protects operators from active pharmaceutical ingredients (APIs) during analysis





Testing of pharmaceutical products often involves dealing with potent compounds. The SprayVIEW® System Environmental Enclosure (SEE) offers a safe way to extract inhalation drug products during spray pattern and plume geometry measurement testing. The filtration system within the SprayVIEW® system consists of three filter layers and a ventilation fan to ensure complete and effective evacuation of each spray tested.

proveris SCIENTIFIC

SprayVIEW® System Environmental Enclosure (SEE) Features:

- Chemically resistant construction of pharmaceutical-grade phenolic, anodized aluminum, glass, and stainless steel
- Ventilation fan designed for programmable control and automatic shut off, as well as a manual override
- Viota® software verifies the airflow every time before running a method on the system hardware self-test to ensure a proper evacuation performance.
- Customer-replaceable external pre-filter (efficiency: MERV 8) traps larger particles (>10 µm) and can be easily replaced based on usage and need
- Two built-in filters (changed annually during the PM service)
  - Activated carbon filter for organic compound removal
  - The HEPA filter efficiencies are 99.98% at particle size 0.3 µm and rated airflow volume (CFM) 81

Compatible SprayVIEW® System Models

Product No.	Model Name	Included Actuator	Intended Usage/Application
001400	SprayVIEW® System DSx	Vereo® Actuator DSx	– Dual side-actuated nasal spray devices
002201	SprayVIEW® System NOSP	Vereo® Actuator NSx	– Vertically actuated nasal spray devices – Vertically actuated oral spray devices, horizontally sprayed – Vertically actuated unit-dose, bi-dose nasal spray devices – Vertically actuated unit-dose, bi-dose oral spray devices
002220	SprayVIEW® System NSSP	Vereo® Actuator SSx	– Side-actuated nasal spray devices
002250	SprayVIEW® System SFpMDI	Vereo® Actuator SFMDx	– Pressurized metered dose inhalers
