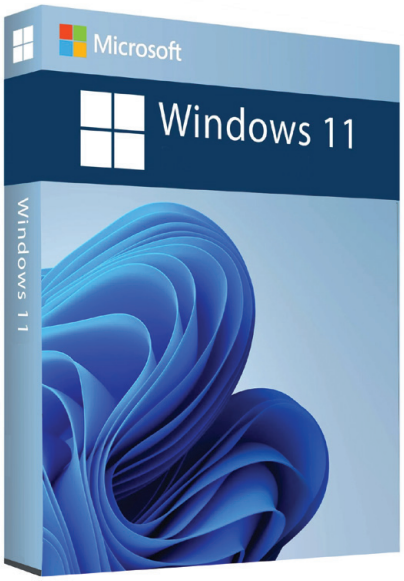
Windows 11 Upgrade
Proveris Systems and Software

SOFTWARE

Microsoft's official end-of-support for Windows 10 is October 14, 2025.

To help users stay secure, Proveris Technical Support is proactively upgrading its systems.

To achieve this, we are transitioning from Windows 10 to Windows 11, which will require the latest version of Viota® Software, Viota 9.2.



Essential upgrade for security, reliability, and compliance

This upgrade is essential for maintaining security, reliability, and compliance in regulated laboratory environments. Proveris Scientific's transition plan ensures minimal disruption while giving your systems the latest supported operating environment.

Existing systems

- Current users on Windows 10 workstations will receive validated software update during a Proveris Service Engineer on site visit.
- Current users on Windows 7 will require workstation replacement and will receive a Windows 11 workstation to be configured with Viota software by Proveris Service Engineer during an onsite visit. The version of Viota will need to be upgraded to version 9.2.

New systems

- Starting July 1st, 2025, all new systems will be delivered with a Windows 11 workstation.

Verification and validation services

- To ensure systems maintain peak performance and operation, Proveris Scientific will offer system verifications and validation services.
- Installation Qualification (IQ) & Operational Qualification (OQ) Services will be available to validate system performance, compliance, and stability.

Site requirements and scheduling

- Site Requirements Agreement must be completed and system readiness verified 30 days before the scheduled on-site visit.

SprayVIEW® Measurement Systems, Indizo® Nasal Spray Collection Systems, and Vereo® Automated Actuators

Ordering Guidelines

Part #	Description
7000-WIN10UP11ACR	Windows 10 to 11 Upgrade Kit for Actuator Instruments, Remote Database (Workstation Dependent)
7000-WIN10UP11ACL	Windows 10 to 11 Upgrade Kit for Actuator Instruments, Local Database (Workstation Dependent)
7000-WIN10UP11SV	Windows 10 to 11 Upgrade Kit for SprayVIEW Instruments (Workstation Dependent)
7000-WIN10UP11IND	Windows 10 to 11 Upgrade Kit for Indizo Instruments (Workstation Dependent)
7000-WIN7UP11ACR	Windows 7 to 11 Upgrade Kit for Actuator Instruments, Remote Database
7000-WIN7UP11ACL	Windows 7 to 11 Upgrade Kit for Actuator Instruments, Local Database
7000-WIN7UP11SV	Windows 7 to 11 Upgrade Kit for SprayVIEW Instruments
7000-WIN7UP11IND	Windows 7 to 11 Upgrade Kit for Indizo Instruments
7000-DBS	Database Services (Required)
7000-VSU	Viota Software Upgrade Database Instance (Required)
7000-IQ-AC	Installation Qualification (IQ), Vereo Automated Actuator
7000-OQ-AC	Operation Qualification (OQ, Vereo Automated Actuator
7000-OQ-SV	Operation Qualification (OQ), SprayVIEW System
7000-IQ-SV	Installation Qualification, (IQ), SprayVIEW System
7000-IQ-IN	Installation Qualification (IQ), Indizo System
7000-OQ-IN	Operational Qualification (OQ), Indizo System
