Future-Proof Your Lab: Upgrade to Windows 11 IoT and Viota® 9.2

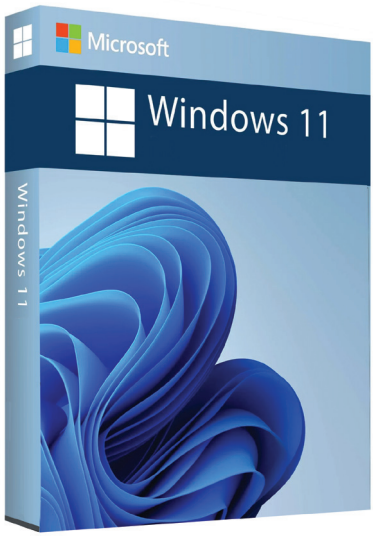
SOFTWARE

Microsoft is ending support for Windows 10 on October 14, 2025.

Proveris is ready — are you?

To keep your laboratory secure, high-performing, and ready to meet compliance requirements, Proveris is upgrading all supported systems to Windows 11 IoT, paired with Viota 8.2 or 9.2 software.

This transition enhances system stability, security, and long-term support, ensuring your lab stays ahead of evolving regulatory and operational demands.



Why upgrade now?

Windows 11 IoT LTSC is purpose-built for laboratory and industrial environments. Unlike standard consumer OS platforms, it delivers the stability and long-term support your regulated systems require.

Key benefits:

- Supported from October 1, 2024 – October 10, 2034 (No mandatory updates every 2 years like Windows Pro)
- Minimized Disruption: No bloatware or unwanted feature updates
- Strengthened Security: Hardened OS designed for controlled lab environments
- Optimized Performance: Consistent responsiveness for Viota-based applications

Important

- If you already run Viota 8.2 or 9.2, no Viota upgrade is needed to move to Windows 11 IoT.
- Viota 8 reaches end-of-life on Jan 1, 2027. We recommend planning your Viota 9 upgrades now to maintain support and ensure seamless communication across instruments.

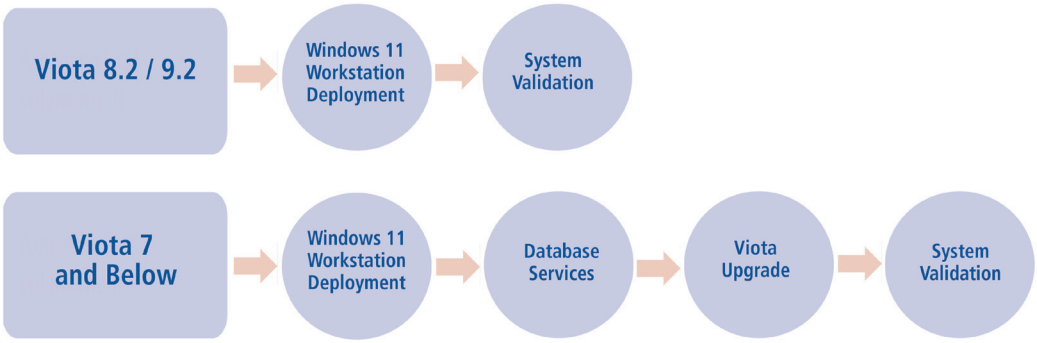
Upgrade Paths for Existing Systems



Technical Services to Support your Transition

Proveris offers a complete upgrade package to minimize downtime and ensure your system remains validated and compliant. Services include:

- Software & OS Upgrade to Windows 11 IoT and Viota 9.2
- System Revalidation with IQ/OQ services for compliance
- Full Documentation for audit readiness and QMS compliance
- Data Integrity Check — we maintain database backups and confirm data is preserved post-upgrade

Frequently Asked Questions

Q: Will my task data or methods be affected?

A: No. We back up your database before the upgrade and verify full data integrity afterward.

Q: Will the upgrade impact regulatory compliance?

A: No, as long as an IQ/OQ is performed post-upgrade. We supply validation documentation for your records.

Q: Can I upgrade one system at a time?

A: It's technically possible, but strongly discouraged.
Compatibility issues may arise — upgrading all systems together ensures uninterrupted performance.

Q: What should I do now to prepare?

A: Contact Proveris Technical Services to schedule a consultation.
We'll review your system setup and recommend a tailored upgrade path.

Get Ready Today!

Starting August 1, 2025, all new Proveris Systems will ship with Windows 11 IoT and either Viota 8.2 or 9.2 software. Future-proof your existing systems by upgrading today!

Ordering Guidelines

Part #	Description
7000-WIN10UP11ACR	Windows 10 to 11 Upgrade Kit for Actuator Instruments, Remote Database (Workstation Dependent)
7000-WIN10UP11ACL	Windows 10 to 11 Upgrade Kit for Actuator Instruments, Local Database (Workstation Dependent)
7000-WIN10UP11SV	Windows 10 to 11 Upgrade Kit for SprayVIEW® Instruments (Workstation Dependent)
7000-WIN10UP11IND	Windows 10 to 11 Upgrade Kit for Indizo® Instruments (Workstation Dependent)
7000-WIN7UP11ACR	Windows 7 to 11 Upgrade Kit for Actuator Instruments, Remote Database
7000-WIN7UP11ACL	Windows 7 to 11 Upgrade Kit for Actuator Instruments, Local Database
7000-WIN7UP11SV	Windows 7 to 11 Upgrade Kit for SprayVIEW® Instruments
7000-WIN7UP11IND	Windows 7 to 11 Upgrade Kit for Indizo® Instruments
7000-DBS	Database Services (Required)
7000-VSU	Viota Software Upgrade Database Instance (Required)
7000-IQ-AC	Installation Qualification (IQ), Vereo® Automated Actuator
7000-OQ-AC	Operation Qualification (OQ, Vereo® Automated Actuator
7000-OQ-SV	Operation Qualification (OQ), SprayVIEW® System
7000-IQ-SV	Installation Qualification, (IQ), SprayVIEW® System
7000-IQ-IN	Installation Qualification (IQ), Indizo® System
7000-OQ-IN	Operational Qualification (OQ), Indizo® System
